

# LUZATOP

DEHYDRATED ALFALFA PELLETS

The benchmark alfalfa  
with 18 % protein

Désialis

A natural source of protein and fiber, rich in vitamins and minerals, alfalfa has multiple nutritional benefits that are **stabilised and preserved by the process of dehydration**.

LUZATOP is a specific product (homogenisation of lots upon receipt), specially formulated with a protein level that can meet the needs of different animal sectors.

## IS DEVELOPED USING A UNIQUE INDUSTRIAL PROCESS

**LUZATOP, A uniform and traceable quality**

**From French crops**, our alfalfa is obtained from non-GMO seeds, since it is not authorized in Europe. Our crops, transportation to dehydration plants, dehydration tools and silos are entirely dedicated to non-GMO materials.

Our alfalfa is grown, harvested and processed in a unique industrial process.

→ Respect of the cutting calendar in order **to harvest a plant in a vegetative state** best suited to the manufacture of our various products (protein and cellulose levels)

→ Better **preservation of the nutritional qualities** of alfalfa in the field

→ **Homogenization of production batches** to obtain a product of homogeneous quality

## VALUES ANIMAL PRODUCTIONS

By its contribution of digestible fibers, its richness in minerals (calcium, potassium, phosphorus) and the presence of buffer substances, **LUZATOP favors the ruminal functioning**

→ **Good rumen health** keeps animals in good general condition

LUZATOP is rich in **minerals, trace elements,  $\beta$  carotene** and **vitamin E**. These essential nutrients have a beneficial effect on the **health and fertility of animals**.

→ **Better valorization** of milk and meat products

**LUZATOP, animal health factor, improves animal production**

## GUARANTEES A SECURE PROTEIN SOURCE

**LUZATOP, traced proteins**

LUZATOP is a natural source of protein:

→ **Protection of protected proteins** through dehydration process, available in the intestine

→ **French protein supply**

**Désialis**
